

This newly crafted 15W toroidal tube output transformer is tailored for high-end Push Pull audio amplifiers. Utilizing a toroidal core with strategically placed air gaps, it enhances audio quality significantly. Representing an upgraded version, it is optimized to function seamlessly with the majority of common output tubes.

SPECIFICATION:

Output power	15 Watt
Turn Ratio	30:1
Ultra Linear tap	40%
Primary impedance	7.5K Ω
Primary DC resistance	230 Ω
Output impedance	4 & 8 Ω
Output DC resistance	0.4 & 0.5 Ω
Max DC plate current	120mA
Frequency response	10Hz - 30KHz
Size	\varnothing =3.9" H=1.6"
Weight	2.6 LB
Suggest Tubes	6BQ5, EL84, 6L6, 6V6

Optional steel case showed. Order number CA-003

Antek MP-15W75: 12AX7 Driving 2x EL84 into 8 Ohms
